Forecast for Friday 11 Aug 2023

Weather: Becoming increasingly cloudy from the south through the early hours, with a band of rain following behind. This will be heavy initially but easing by morning. Rain clearing the north by around mid-morning with prolonged sunshine behind. Scattered showers will develop from late morning, persisting through the afternoon, with the chance of thunder.

Chance of cloud-free hill tops above 800m: Generally 80% but decreasing to 40% on the rain band.

Low cloud and visibility: Scattered or broken low cloud, base 500-700m, in association with early morning rain. Visibility generally good but reducing to moderate or poor in heavy rain, temporary reductions in showers.
